

CASE HISTORY

24/01/2017

March 12 – 1st contact with MH services following arrest after a bad trip of taking LSD & alcohol, mental state assessed remained in custody of police – no MH input
March 14 – 2nd contact, assessed by team psychiatrist, presented with anxiety & suicidal thoughts in context of social stressors due to pending court case leading to stress. Discharged from MH services, suicidal thoughts are longstanding from early childhood and present at times of high stress, not 'A typical' of other forms of suicide as relates to thoughts as opposed to wish to die, and usually found in context of those presenting with early childhood trauma as a way of expressing emotions.
Nov 14 – Mental Health Act assessment, not detained in hospital, discharged from mental health services. Presented highly volatile, angry & paranoid about motives of others, presented in context of social stressors due to on-going issues with police & court process – mother reported he has been targeted by police causing him stress??

He has a medical history of Crohn's disease which may impact on mood stability particularly if not compliant with treatment and monitoring of symptoms.

All assessments completed by mental health services have found no evidence of serious mental illness, he appears to be a very angry young man who has had an extremely difficult and traumatic early childhood which is likely to explain his distrust of people in authority (e.g. police) and being angry at others and at the world....

Debbie

Good afternoon Mark,

Just received some disturbing news about an incident that took place today. I was made aware that Simon Cordell attempted to strangle the tenant of 113 Burncroft Avenue. She managed to escape his grip but, extremely shaken by the whole episode. She is petrified at the moment and refuses to leave her flat.

Would it be possible to contact / visit her today ASAP please.

Thank you
