

door and asked what they wanted to speak to me about in the safety of knowing all was being recorded on CCTV. I showed some concern in regards to the team turning up to my address unannounced and that I felt that this was a breach of my privacy. I was unhappy with the way I was spoken to by the Mental Health team, on this occasion, especially with the understanding of what had been portrayed to me and that being that since Goodie had gone away on leave that Elan and the other people standing at my front door had been made case handlers of myself for no reason I was quite shocked and concerned as Goodie was surely happy when he had left prior and never said anything of the sort, it was then explained to me that they wanted to do another assessment on me once again I explained that I had just let Goodie into my home less than 2 days, the team soon left.

once again with the concern of being assessed without any true reason as I knew that I had mostly been indoors and had travelled to the shops a few times with friends and family with no concern about my well being, After Elan and team had arrived I called the mental health team so to find out why they had truly attended and to raise my concerns, while achieving this I used a dictator to record the minutes of the conversation I managed to speak to Ellen herself and explained to her that I was happy for the team to have a meeting with myself. If they wanted but please could they contact myself first or have a true reason under the mental health act.

A few days later I received a phone call from my mother and she seemed quite concerned for my well being, on asking her what was wrong she explained that the early prevention team had called her mobile phone and told her that they were obtaining a warrant under a person of interest section 135 of the mental health act 1983, this was said to be for the reason that I would not allow them access into my home.

On the 00/00/2016 while at home with my mother and civil partner I received a knock on the front door, on opening the door there was a multitude of persons present when asking them who they were they expanded police officers and doctors awaiting to serve a warrant to enter my home under section 135 of the mental health act 1983 I explained to them that I was happy to allow the doctors and medical teams access once again so to be able to conclude their assessment but was not happy for members of the police to enter due to the sensitivity of my personal information as I still had ongoing complaints and cases that I was a subject towards, the police agreed to await outside.

Before the meeting started, I pressed play on my recording system so to be able to have a copy of the minutes of the meeting as I find professional best for all people's interest.

The general outcome of the meeting was that the warrant had been obtained illegally due to myself having a recording of Elven being invited for a meeting into my home of my own free will prior and that I had allowed Goodie entry into my home two days before they arrived at my front door unannounced, with no truth in decrease or evidence of an unstable mental mentality of mine, between and on them dates. The warrant issued was and is for a person whom won't allow access to mental health teams to which I clearly did do; Ellen makes a full transcription of this on CD.

I allowed the meeting to go ahead in any case and was assessed as being mentally stable with no issues of concern.

When listening to the transcripts of the minutes that took place that day under the grounds of the assessment, after being confirmed as well by the doctors, I was then asked if I was happy to be assessed every day or once a week, I was not happy with this as I feel I have worked hard to achieve my goals and this would have a negative impact on my time and ability as it clearly is right now, I did however say that I will talk with my partner about this and come to an agreement. After talking to my civil partner we decided that the mental health team had come to the right conclusion of me being well and that we were much more than capable of looking after ourself and felt more comfortable to do this.

I soon received a letter asking myself to go to Edmonton Green for another assessment as dated **29/02/2016**, I called the centre and explained that me and my partners had made our decision and that
