

Retrospective Entry

Entry Sam Curtis, Forensic Social Worker

Outline report. Initial entry on 03.02.16. Updated on 09.02.16.

I carried out a Mental Health Act for Simon at around 10:40hrs on 03.02.16. Dr Al-Allaq (independent s12 Doctor), Dr Albazaz (independent s12 Doctor), CJ and Nellie (HTT workers), Amal (Community Mental Health Nurse based at Enfield Early Intervention Team) all attended. A s135(1) warrant was obtained but not executed as Simon gave access. A lock smith was present but there services were not required as Simon opened the door. The police were present but remained outside the property.

Mr Cordell's home was somewhat cluttered with a large printer by the door. However, it was clean and organised. He had food in the kitchen.

His mother and a female friend were present. Simon was expecting the assessment. He was appropriately groomed and dressed. He had put his dog in the garden. Simon expressed his unhappiness about the warrant being obtained. He said that if he had been sent an appointment letter he would give professionals access.

He mentioned on going issues with the police and that he had a court case in February. His speech was somewhat rapid at the start of the interview but this appeared to be due to anxiety rather than thought disorder. His speech slowed as the interview went on. Simon did change the topic of conversation a number of times as there was particular information that he wanted to share with the team. He spoke a project to start an community internet site and showed those present a business plan that was on his computer. He showed us documents which he said were related to his court case. He pointed out a line in the document that said that all the suspects were white and said that this was part of his legal challenge to his asbo.

He denied any symptoms of mental illness when asked about a variety of psychotic symptoms. He denied suicidal ideation. He spoke about difficulties he had with his upstairs neighbour relating to noise disturbance. He showed us some letters which said that his neighbour had written to him. He said that his neighbour has an alcohol problem and a learning disability.

There was no evidence of distraction, confusion or that he was responding to internal stimuli.

I did not feel that there was sufficient evidence of mental illness on the day of the assessment to detain Simon under the Mental Health Act. Neither Doctor made medical recommendations. Simon agreed to attend an outpatient appointment with the Early Intervention Team psychiatrist.

SSM1 report to follow.
