### 2. Relevant social and medical history

Mr Cordell was a victim of sexual abuse as a child and attended SAFE under Dr Caplan for a long time. He was arrested for burglary as a young man and was remanded in custody in a Young offenders institution for a prolonged period. During this period he was discovered making preparation to kill himself by hanging. It is recorded that he has used laughing gas and LSD. He was arrested for organizing illegal raves. It seems that he may base his complaints for Police Harassment as he believes they have obstructed his ability to run this business. It is reported that he was made the subject of an ASBO, required to wear a tag and believed he could not go out at all for about a year. He was banned from visiting barns derelict buildings and factories and had a curfew. Medical: Mr Cordell suffers from Crohn's disease but does not eat properly to manage his symptoms and will not seek medical advice for this. In 2014 there were many deaths in the family from natural causes especially his grand mother to whom he was very close. He was assessed for admission in November 2104 but not detained. During this period he spent many hours in doors his mother kept smelling gas but no leak was detected despite repeated complaints. He felt very ill and spent some days in hospital. Some time later it was discovered the gas and carbonmonoxide meters were incorrectly installed and he was without heating or hot water for 6 weeks.

### 4. Assessment of risk to patient and/or to others

Mr Cordell seems to have a history of deteriorating behaviour and feelings of persecution and since 2014 after the deaths in his family and the carbon monoxide poisoning. He has been taping everything and has Closed circuit TV outside his flat. It is reported that he believes the TV is talking about him. He has been depressed in the past and attempted to take his own life. He seems to have some very grandiose plans to run Raves but no evidence that he has any funds for it. this is a long running issue that has not changed since his admission in 2016.

given his presentation today he would be a risk to other if not assessed under the mental health act and then treated.
