

FICS Enfield - consultant's note

Simon had been referred to FICS for advice before he was detained under the MHA. I note the working diagnosis of psychosis. This would seem to be a possible explanation for some of the behaviours described and, if confirmed as a diagnosis, antipsychotic treatment might well alter the relevant risks longer term.

In terms of the inpatient assessment currently ongoing, if not already, some helpful corroborative information about Mr. Cordell's behaviour and tenancy problems might be obtained by contacting:

Ward staff suggested Simon might like the quiz. Simon was in his room. He answered technicians knock on the door. He was invited to attend the session...politely declined writing an appeal re his being in hospital.
