**Subject:** Welcome to No-IP

## Welcome to No-IP!

Thanks again for creating a No-IP account.  
Follow the steps below to configure Dynamic DNS on your account.

We have two options to help get your new account configured; you can do it on your own, or we can help you. Follow the steps below to configure your account, or configure your device now using our [Device Configuration Assistant](#).

If you need additional help, please [open a support ticket](#) , or give us a call, 1-775-853-1883. Our Customer Success Team is here to help!

---

### Dynamic DNS Account Configuration

1 [Login](#) to your No-IP account.

2 Create a hostname (example: yourname.ddns.net)

This hostname will be the URL you will use to connect to your device from anywhere.

3 Download and Install the [Dynamic Update Client \(DUC\)](#) .

This software is only needed if your router or device does not have No-IP as an integrated Dynamic DNS provider. ( [What is an integrated Dynamic DNS provider ?](#) )

After installation, you will need to login to the DUC and configure it to update the hostname you added in Step 2. ( [Windows DUC Instructions](#) , [Mac DUC link Instructions](#) , & [Linux DUC Instructions](#) )

- 4 If you are behind a router or firewall, you will need to open and forward the correct ports for the services you wish to run.

### [Port Forwarding Guides](#)

Not sure which ports to forward? Check out this [list of common ports](#) and what they are used for.

---

## Device Configuration Assistant

### Not sure how to set up your account or your hostname on your own?

Our Device Configuration Assistant will walk you through device configuration and port forwarding to help ensure your hostname and network are properly configured from the start.

[Go to the Device Configuration Assistant now to begin the configuration process.](#)

---

## Need Help?

Our [Getting Started Guide](#) is a great resource for additional configuration assistance. If you still need help, please [open a support ticket](#), or give us a call, 775-853-1883. Our In-House Customer Support Team is here to help.
