Yes i agree it takes you away at some point which i understand to be the payment of a business card transfers to woohoo but i believe the advantage is after buying the plugin you get the app which is the part i want in the demo mode it has a down load to com widget and a payment widget i just want to delete or deactivate the add to cart button in the downloaded plugin then all else should be ok as the download button does not direct you to woo hoo payment services. Cn you help me try to do this please?

1. This is what i want to pay for but first i want to be sure that i can make the payment feature not charge the clients money for the service.

[WooCommerce Business Card & Flyer Design](#)

2. I would like to make the menu bar in the business directory the same as the word press menu so that it shows a link to the festival pages

Once this has been achieved then i believe i can sort the rest please can you help me.
