Subject: Parts

Contact Name; Mr Simon Cordell 23 Byron Terrace Edmonton London N9 7DG

Hello, hope all is well I have been asked to forward this email to yourself's in regards to parts for a Morgana 150 pur machine that I have recently been trying to fix.

The parts and prices that I request are as follows:-

- 1. Thermostat, Solder Tag the markers on the original part are; Termination, 0°C +460°C 2455rc 9082 N47 12 L200c.
- 2. The different prices of the blue beans needed to clean the machine.
- $\dot{\text{3}}$. The different prices of the glue need to fill the machine.

I also ask if there should be a Semiconductor contained in the machine within the distribution board at the back: code numbers

- 1. KM20.01
- 2. KM23.01

If so what is the part number and how much does Morgana supply them for?

Many thanks and kind regards Mr Simon Cordell
