

concerns, while achieving this I used a dictator to record the minutes of the conversation I managed to speak to Ellen her self and explained to her that I was happy for the team to have a meeting with my self if if they wanted but please could they contact my self first or have a true reason under the mental heath act.

A few days latter I revived a phone call of my mother and she seemed quite concerned for my well being, on asking her what was wrong she explained that the early prevention team had called her mobile phone and told her that they were obtaining a warrant under a person of interest section 135 of the mental health act 1983, this was said to be for the reason that I would not allow them access into my home.

On the 00/00/2016 while at home with my mother and civil partner I received a knock on the front door, on opening the door their was a multitude of persons present when asking them who they were they expanded police officers and doctors awaiting to serve a warrant to enter my home under section 135 of the mental health act 1983 I explained to them that I was happy to allow the doctors and medical teams access once again so to be able to conclude their assessment but was not happy for members of the police to enter due to the sensitivity of my personal information as I still had ongoing complaints and cases that I was a subject towards, the police agreed to await out side.

Before the meeting started I pressed play on my recording system so to be able to have a copy of the minutes of the meeting as I find professional best for all people's interest.

The general outcome of the meeting was that the warrant had been obtained illegal due to my self having a recording of elen being invited for a meeting into my home of my own free will prior and that I had allowed goodie entry into my home two days before they arrived at my front door unannounced, with no truth in decrease or evidence of an un stable mental mentality of mine, between and on them dates. The warrant issued was and is for a person whom won't allow access to mental health teams to which I clearly did do; Ellen makes a full confection of this on CD. I allowed the meeting to go ahead in any case and was assessed as being mental stable with no issues of concern.

When listening to the transcripts of the minutes that took place that day under the grounds of the assessment, after being confirmed as well by the doctors, I was then asked if I was happy to be assessed every day or once a week, I was not happy with this as I feel I have worked hard to achieve my goals and this would have a negative impact on my time and ability as it clearly is right now, I did however say that I will talk with my partner about this and come to an agreement. After taking to my civil partner we decided that the mental health team had come to the right conclusion of me being well and that we were much more than capable of looking after our self and felt more commutable do this.

I soon received a letter asking myself to go to Edmonton green for another assessment as dated 29/02/2016, I called the centre and explained that me and my partners had made our decision and that was that we can cope alone and if we ever find our self's insure of any think that we will contact the mental health team.

The care team called my mobile phone 14 August 2016.
